You may or may not be aware that Jones Homes (Yorkshire) have submitted a further planning application to build an additional 94 houses on land off Wood Lane, situated behind the former colliery Winding Wheel.

Details of the application can be found on the Rotherham MBC planning portal at http://planning.rotherham.gov.uk/detail.asp?AltRef=RB2018/1236. Here you will be able to view all the relevant documents submitted regarding the application, together with all comments submitted already by local residents. Whilst the site also states that the last date for comments/objections is the 7th September 2018, the Parish Council have obtained an extension to the 30th September 2018 for comments/objections to be submitted.

There has already been three Extraordinary Parish Council meetings where the residents have attended and put their points of view forward.

Whilst the Parish Council has formulated its own response to this application it is also facilitating a campaign group in the village, volunteers who are actively opposed to the application. The group are now circulating the village with
individual letters for residents to sign or to sign a petition if that is more convenient. If you have not been contacted a copy of the letter follows on the next two pages for you to fill in your name, address and then sign and date before sending in to the Planning department.

These meetings have been attended by either Amy Brookes or Bob Walsh who are two of the Borough Councillors who represent Treeton at Rotherham MBC, and whilst Bob Walsh is actually on the Planning Committee which will make the final decision, he has given his expert advice on planning matters. Andrew Towlerton, a nationally recognised planning expert has also attended, and has also provided invaluable advice. These meetings are open to any resident of the village who is on the current electoral roll.

It is also hoped that at a future meeting, Kevin Barron MP will attend to give his support to the campaign of objection together with the local press.

Although this development may not be on your doorstep, it will bring additional residents and cars to the village and there are no planned improvements to the infrastructure or facilities in the village. Currently the village primary school is over subscribed and some children have to get their primary education in neighbouring villages and the village Medical Centre is fully subscribed, it may be difficult to get an appointment now, this will only get worse with additional residents.

The village needs your support against the application.
Objections to Proposed Jones Homes (Yorkshire) Development RB2018/1236

01. Over the last 20 years the village has virtually doubled in size with year on year development. It has now reached the stage where the village infant school has reached capacity. For the last few years and for the foreseeable future the school has been/ will be oversubscribed. There is now no further room to extend the school with portable classrooms. Currently the only solution is for children to go outside the village for their primary education. A development like this would only add to these current problems with even more village children having to go outside for their primary education. The same can be said for Aston Academy which is currently at capacity.

02. The current Medical Centre in the village is now fully subscribed, recently the practice has had to review the areas it covers to reduce numbers and to cover village residents only, but this has still left them at their upper limit.

03. In the proposal there are no provisions for improved local amenities, such as shops. In the first major development there was an area highlighted for commercial development for shops etc., This area was continually moved until it became the last piece and was then allowed to be developed for housing after an appeal to the Planning Inspectorate. With all this development there are now less shops in the village then there were before the development started. Shops and businesses have been interested, then for some reason have pulled out at the last minute. The size of the village and the through traffic it has would surely lend itself to a major supermarket express outlet or the like. Jones Homes are only interested in building houses and not investing in the infrastructure of the village that they are overloading with houses.

04. The availability and suitability of a sustainable public transport system capable of coping with the additional population. Problems currently exist which can only be exacerbated by the population increase (for example the transporting of Treeton students to and from Aston Academy that is already under extreme pressure).

05. Access to the development is also unsafe, it is currently on a hillside which has many speeding cars and has been the site of many accidents in recent years plus it is also in close proximity to the local infant school.
06. The additional houses could add another 150 cars to the already congested road through the village. Currently there are problems exiting at the Aughton cross roads with queues that in extreme circumstances can stretch back nearly to the village. Exiting through other routes increases the flow of traffic on Long Lane, which in some areas is not much better than single lane or through to Catcliffe via the railway bridge at the top of Mill Lane which has weight restrictions and traffic lights which again leads to long queues at peak times.

07. The existing railway bridge at the top of Mill Lane, which has been designated as weak for a number of years and reduced to one lane, has recently undergone a survey which has shown the bridge has further weakened resulting in a weight restriction being placed on it. The increased volume in traffic will only speed up further weakening of this bridge.

08. The imposing of a weight restriction on the bridge will mean that any construction traffic that enters the village will have to enter from the Aughton side, where the development is proposed, and this will lead to its own safety issues with the many twists that this narrow road has before it descends into the village.

09. The development will have a further impact on the loss of fauna and flora in the village.

10. Lack of continuity when the developments are completed. Areas in previous developments have been tree planted but not maintained after the development has been completed. Plans for continuity after the development has been completed must be in place as currently requests to maintain previously planted areas which are now causing problems are continually ignored by the developer.

As the September Issue of the Newsletter was produced early to cover the Jones Homes (Yorkshire) planning application, many of the information items were missing, they are now included in this supplementary edition.

Treeton Medical Centre News

INFLUENZA CLINICS

It is important to get vaccinated against Flu. If you are in one of the following at risk groups; this is a free vaccine: Heart Disease, Angina, Stroke, Diabetes, COPD, HIV Asthma (only on a regular preventive therapy) Emphysema, Cystic Fibrosis, Epilepsy, MS, Cancer Immune Suppression, Chronic Renal Failure, Parkinson’s, Rheumatoid Arthritis, Patients aged 65yrs.

If you have a condition which is not on the above list, please enquire at the surgery if you are eligible for a free vaccine. It is important if you fall into an at risk category to have your Flu vaccination. Please contact the surgery for an appointment. Having your flu vaccination at the surgery ensures this is documented in your medical records and keeps your records up to date.

Flu vaccinations appointments are available to book from September; appointments can be booked either online, face to face or via telephone. If you are a bed bound patient or their carer; please contact the surgery to arrange a home visit for your/their flu vaccination.

DNA (Did not attend) Appointments

Missed appointments are a waste of time and resources which could have help another patient access the service.

During the Month of May 71 appointments were missed which equates to a total of 20hrs of wasted time:
19 GP missed appointments
14 HCA missed appointments
12 ANP missed appointments
26 Nurse missed appointments

Please cancel all unwanted appointments and help improve access to the service for all patients.

Care Navigation

Our receptionists are her to help you see the right person for your needs. Please don’t be offended if they ask what the problem is when you call to make an appointment. The receptionist might suggest that you see someone else who can help you better such as, IAPT (Mental Health Services), Self care pharmacy, Sexual Health, Physio first, Stop smoking, Midwife, ANP (Advanced Nurse Practitioner). For further details visit www.rotherhamccg.nhs.uk/care-navigation-2.htm to find out more about the full range of services available locally.

Choosing the right care, first time

Pharmacy first: Many pharmacies are open early until late and on weekends and bank holidays. You don’t need an appointment, and can just pop in and get expert medical help from a qualified healthcare professional. Most pharmacies now have a private consultation area where you can discuss your issues and concerns without being overheard. Pharmacy First Many of Rotherham GPs and community pharmacies are part of the Pharmacy First scheme which enables you to get medication direct from the pharmacist without a prescription. Plus if you don’t normally pay prescription charges you can get medicine supplied under the scheme FREE OF CHARGE. For a list of pharmacies in the scheme visit: www.rotherhamccg.nhs.uk/pharmacy-first.htm

Self care: You can treat most common ailments and illnesses at home by keeping a well stocked medicine cabinet. This should include: • Pain relief e.g. paracetamol or ibuprofen • Children’s paracetamol oral suspension and ibuprofen syrups • Mild laxatives to relieve constipation. • Cold relief products. • Rehydration mixtures to use if feeling dehydrated after a bout of sickness or diarrhoea. • Indigestion remedy. • A range of bandages, plasters, non-absorbent cotton wool, elastic bandages and dressings for minor cuts, sprains and bruises.

Children: All children get colds. This is a normal part of growing up and no medicines can prevent them. The best way to look after your child is to make sure they have plenty to drink and if they have a temperature some paracetamol will help. Most doctors don’t recommend cough medicines and antibiotics won’t help a cold.

NHS 111: NHS 111 offers confidential health advice and information by telephone. Ring 111 if you are ill and have questions about your health and where to get treatment. Health services are very busy at the moment. Help us to help those most in need. Follow these steps to use the right treatment:
GP surgeries: Make an appointment with your local GP if you have an illness or injury that will not go away.

Patient Participation Group

A PPG is made up of patients and practice staff who communicate at regular intervals to consider ways of making a positive contribution to the services and facilities offered by their practice to patients.

If you would like to get involved or would like your ideas passed to the group, please contact John Swift who is the chair for the group on 0114 2696992 alternatively please contact Treeton Medical Centre and speak to the practice manager. All suggestions/ideas will be reviewed; this is only for PPG suggestions NOT for complaints or enquiries.

The Carers Resilience Service team

The Carers Resilience Service team, who facilitate the carer drop-ins, can provide information and signposting on the support and resources available to help carers in Rotherham.

For more information please call 01709 360272 and ask to speak with one of the Carers Resilience Team or pop along to Treeton Medical Centre during one of our drop-in sessions.

Zero Tolerance

The surgery operates a zero tolerance procedure in conjunction with NHS England and South Yorkshire Police. The Practice will not tolerate patients who are violent, abusive or use foul language to staff and ancillary staff. Action will be taken against anyone found to have used any of the afore mentioned forms of unacceptable behaviour. This also applies to electronic media behaviour such as emails, face book and twitter. Any proven threats made against the practice and its staff will be forwarded to the police.

Chronic Disease Reviews

If you are due for your annual review for Diabetes, Hypertension, COPD, Asthma or CHD, please contact the surgery to book an appointment with the Nurse. The practice has a duty of care to ensure all patients who are on chronic disease registers ie: Asthma, are reviewed.

Update contact details

Please update your contact details if they have changed, this will enable the practice to contact you for routine or urgent matters. If you have a mobile phone could you please let the surgery know, this will enable the practice the facility to be able to send an appointment text reminder to you.
